GERMOCARE LINE - TECHNICAL DATASHEET

NEO STERIXIDINA SOAP

NEO STERIXIDINA SOAP is a liquid disinfectant soap for hands and skin with antibacterial activity based on Chlorexidine Digluconate 4%, ready to use.

Its active agent, used for general skin antisepsis and for hands in particular, removes microorganisms and keeps bacteria flora at lowest level. Particular emollient substances prevent skin cracks, keeping the natural lipid skin layer unaltered.

NEO STERIXIDINA SOAP is an antiseptic for skin, registered at Italian MOH and can be used for disinfection of surgeon's hands before surgical operations; for disinfection and cleansing of medical and nursing staff's hands to reduce the risk of cross-infection; for the complete patient washing.

INSTRUCTIONS FOR USE

HANDS:

Use 5 ml of NEO STERIXIDINA SOAP on wet hands and keep in contact for 1 minute. For hand disinfection before surgical operations repeat the washing for 2 minutes. It is recommended to use the soap with a brush for a deeper nail cleaning. Rinse your hands with water after use.

SKIN:

Moisten face and body and wash with NEO STERIXIDINA SOAP (approx. 25 ml) starting from the face. Rinse thoroughly with water and repeat the treatment.

PACKAGING

Internal Code:	Primary packaging:	Secondary packaging:
A870	500 ml bottle	Box containing 12 bottles
A871	1000 ml bottle	Box containing 12 bottles
A873	3000 ml canister	Box containing 6 canisters

All primary packaging is according to the specifications provided by the Pharmacopoeia. The materials do not contain allergens and are perfectly compatible with all components of the formulation.
