TECHNICAL DATASHEET

DISINFETTANTE BABY

DISINFETTANTE BABY is a disinfectant specifically studied for the disinfection of all objects which come in contact with children's mouth: it removes germs, fungi and bacteria on the objects and protects from the risk of infections. The special formula of DISINFETTANTE BABY does not contain chlorine and it is enriched with Bergamot essential oils, it is active in 30 minutes and does not leave residuals (smells or taste) on treated objects.

DISINFETTANTE BABY is used with a small dose in water to disinfect: baby bottles, pacifiers, toys and other objects used by children.

APPLICATION

DISINFETTANTE BABY is used for disinfection of objects (and surfaces) which come into contact with babies.

INSTRUCTIONS FOR USE

Dilute 20 ml of product in 1 liter of water and leave completely immersed the objects previously washed, in the solution for 30 minutes. At the moment of use, drip accurately the objects and rinse them with potable water. The diluted solution of DISINFETTANTE BABY is active for at least 24 hours.

PACKAGING

Internal Code:	Primary packaging:	Secondary packaging:
A701	1000 ml bottle	Box containing 6 bottles

All primary packaging is made of high polyethylene density (HDPE) according to the specifications provided by the Pharmacopoeia. This material does not contain latex and is perfectly compatible with all components of the formulation.
