LINEA GERMOCID - TECHNICAL DATASHEET

GERMOCID VERDE

GERMOCID VERDE is a Medical Device class IIb in compliance with Directive 93/42/EEC.

GERMOCID VERDE, ready to use, is a fast and practical disinfectant. The product has a high alcohol content and it is perfect for disinfecting and aseptic conservation of invasive medical devices. The synergistic combination of its active ingredients guarantees maximum protection against fungi, viruses and Gram-positive and/or Gram-negative bacteria.

GERMOCID VERDE also acts in the presence of organic material.

Its formula has a high cleaning power and evaporates quickly, leaving however a pleasant fragrance.

Ideal for all surgical instruments because it preserves their sharpness.

PROPERTIES

GERMOCID VERDE is used for disinfection and aseptic preservation of invasive surgical instruments. For professional use.

INSTRUCTIONS FOR USE

For disinfection and aseptic conservation of invasive medical devices, immerse them directly in a container containing the ready-to-use solution of GERMOCID VERDE. Leave for 60 minutes for a bactericidal, fungicidal and virucidal activity, keep immersed for aseptic conservation. Proceed with a thorough rinsing before use, the last of which with sterile water.
